DETAILED ACTION

1. This action is in response to communications filed on 5/8/07.
2. Claims 1, 19, 22 and 24 have been amended, claims 25-28 have been cancelled and no new claims have been added. Thus, claims 1-24 are pending.

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not identify the mailing address of each inventor. A mailing address is an address at which an inventor customarily receives his or her mail and may be either a home or business address. The mailing address should include the ZIP Code designation. The mailing address may be provided in an application data sheet or a supplemental oath or declaration. See 37 CFR 1.63(c) and 37 CFR 1.76.

Incomplete mailing address is provided for inventor Carl Young. It only lists residence as New York. A complete mailing address is required.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Art Unit: 2116

Authorization for this examiner's amendment was given in a telephone interview with Randolph Calhoun on 6/17/07.

In the Claims:

1. Line 1, claim 12: delete --wherein the--after "The method of claim 6"
2. Line 19, claim 22: change "structured" to --processed--before "information".
3. Line 2, claim 24: change "residing" to --stored--after "instructions".
4. Line 18, claim 24: change "structured" to --processed--before "information".

In the Specifications:

1. Page 9, line 8: change "104" to -105--before "or subject rating score".
2. Page 13, line 8: change "320" to -321--after "generated"
3. Page 13, line 9: change "104" to -105--after "Security Level"
4. Page 13, line 9: Insert -320-- after "pertinent data"

The following is an examiner's statement of reasons for allowance:

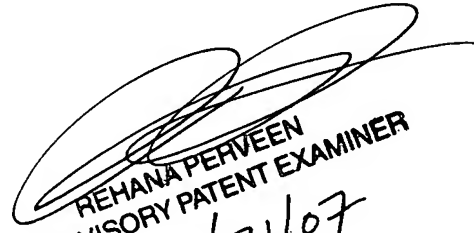

Lineman et al, Fujiyama et al, Erfani, Williams and Sugimoto are cited as references related to security risk management. However, the claimed invention is non-obvious over prior art as there is no apparent motivation for an ordinary skill at the time the invention was made to combine the teachings of the prior art.

Art Unit: 2116

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
